

# Graphic Organizer - Ser vs. Estar

- Divide your paper into two sections.
- On one side, write “Ser” in large letters, and then do the same with “Estar” on the other side.
- Beneath the verb titles, you should describe when to use that verb, referencing your guided notes.
- Finally, you should include drawings that relate to either verb. Since “ser” is sometimes used with dates, you could draw a calendar, for example. Because “estar” is often used with temporary states of being, you could draw a happy face/sad face.
- Overall, use color and be creative!!
