

Spanish-English Dictionary
7th/8th Grade Spanish - Mr. Weigel

Hello Parents:

Your child will need a Spanish-English Dictionary for use in class. This is not always a requirement for Middle School students. But as they will certainly need them throughout High School, it is best for them to acquire one now. Students will learn how to effectively utilize dictionaries as a language-learning tool.

Any dictionary will do, although I especially recommend Merriam-Webster and the University of Chicago versions.

If you will have any difficulty in obtaining a dictionary for your child, especially for financial reasons, please sign below and have your student return this slip. Your child will not need to have a dictionary in these cases. Otherwise, please make sure your child has a Spanish-English dictionary by **September 18th**.
