

## 7th Grade Spanish - Spanish Alphabet Activity

Turn to pages 10 and 11 in the Red textbook

You will make your own flash cards based on the ones found in the textbook. For example, for letter 'A' you will draw an airplane on one side of the flash card (along with the letter) and then on the back you will write the Spanish word (avión), along with its English definition.

A couple of things to follow:

1. You do not need to do cards for k, x, y or z (although you can if you want to)
2. The 'rr' and 'ñ' can be within the word (all other letters should be at the beginning of the word)
3. At least 10 of the letters should be different from the textbook
4. Make sure the words are in Spanish
5. Make sure to color your drawings
6. When you turn these in, make sure the cards are contained using a clip or rubber band
